ANNEX A

SUMMARY DESCRIPTION AND COST ESTIMATE OF PRESENT NOTIFICATION

A) GENERAL

NSPA has been designated as Host Nation, for the acquisition of CP 9A0202 Project 5WI02020 “Additional Items for Deployment”. A portion of this project is a Power Generation System.

The following information contains excerpts from the Statement of Work that will be released during the RFP period.

Project Objectives

The contractor shall furnish to NSPA Power Generation Sets (PGS) and related equipment to provide electrical power, to a rapidly deployable NATO DARS Unit (Deployable Air Command and Control), over a wide range of geographic environments and climatic conditions. Accordingly, NATO expects the equipment to be robust and of high quality, capable of being mounted and dismounted, rapidly and often, at two Points of Presence (PoP), under difficult climate and terrain conditions.

The acquired equipment will be stored at a NATO base in Poggio Renatico, Italy when not deployed for operations or training and will be refurbished there, as necessary, between deployments. This equipment will consist of:

1. Two diesel power generation sets (sized from 250 to 275 kVA) complete with earthing system, fuel storage bladder and lightning protection system.
2. Primary and secondary distribution equipment and camp cabling.
3. Walkway lighting.
4. Specialized storage equipment used to facilitate the transport and storage of the power generation system inside ISO shipping containers.

The contractor will be required to implement an Integrated Logistic Support (ILS) program that will ensure that logistics support matters are considered in the development of the preliminary design concepts through the subsequent design and production of the equipment and associated support materials, training and documentation.
